

Fabrication Services

APEC - Automated Process Equipment Corporation

- Modern Facilities, Skilled Craftsman and Engineering Staff providing Quality products.
- Sheet Metal and Structural Fabrication
- Carbon Steel, Aluminum and Stainless Steel
- Extensive Quality Assurance
- Compatible Design Software and Equipment
- Custom Engineering
- Proto Types — Research and Development — One Of A Kind or Multiples

APEC - Automated Process Equipment Corporation

1201 North Fourth Avenue
Lake Odessa, Michigan 48849

The manufacturing facility at APEC brings together a support staff of electrical and mechanical engineers, field service technicians, journeyman welders and fabricators. These people coupled with the modern equipment and engineering tools, provide our customer with quality products, in a timely fashion.

Facility Information:

- Class 'A' Road Access
- Complete Receiving/Shipping capabilities
- 60,000 Square feet facility
- Mechanical/Electrical Design and Manufacturing

Standard Products Produced :

- Process Equipment
 - Liquid Application Systems (Mistcoater)
 - Micro Ingredient Scaling Systems
 - Scale Hoppers
 - Powder Feeders
 - Batch Mixers
 - Conveyors
 - Slide gates
- Structural Products
 - Stairways & Landings
 - Platforms
 - Bins & Hoppers
 - Structural Support Frames
- General Fabrication
 - Heating and Cooling Ductwork
 - Guarding
 - Transitions
 - Control Panels
 - Prototype Projects

Industries Currently Served:

- Engineers / Contractors
- Agricultural & Pet food
- Material Handling
- Ports / Terminals
- Automotive
- Manufacturers
- Food
- Plastic

Quality Assurance Program

APEC's extensive quality assurance program involves customer participation, engineering staff and production team leaders to insure our products meet the quality level expected by our customers.

Equipment Capabilities:

- **SHARK WATERJET CUTTING SYSTEM**
 - 55,000 PSI water cutting stream
 - Environmentally safe & clean
 - Cuts multiple layers of material
 - Provides "ready to weld" edge
 - **Cuts multiple types of materials**
 - Metal, plastic, stone, glass, foam, rubber and ceramics
- **CYBERMATION CNC PLASMA BURN TABLE**
 - 8' x 20' Sheet Capacity
 - Up to 3/4" material thickness
 - Hypertherm MAX100 torch head
 - AutoCAD compatible
- **PITTSBURG SEAMER**
 - Handles light gauge sheet metals
- **175 TON PRESS BRAKE**
 - Dual Axis CNC Controlled
 - 3/8" thickness x 7' max. length
 - 1/2" thickness x 5' max. length
- **HYDRAULIC SHEER**
 - 1/4 " x 10' carbon steel
- **SEVERAL INITIAL PINCH ROLLS**
 - 1/4" x 8' maximum
 - 3/8" x 5' maximum
- **HMI HYDRAULIC IRON WORKER**
- **MIG / TIG Welding**
- **MATERIAL**
 - Structural / Sheet
 - Stainless Steel
 - Aluminum
 - Carbon Steel
