

# LIQUID ADDITION

## LIQUID DOSING CABINETS, TOTE STANDS & TOTE ENCLOSURES

### ADVANTAGES

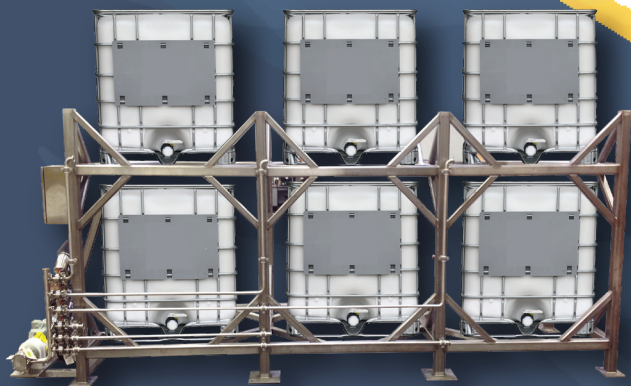

- Space saving design.
- Standard NEMA enclosure can be floor standing, wall mounted, or mounted on the optional tote support stand.
- Plug & play installation.

### STANDARD FEATURES

- Overflow proximity switch in the bottom of the enclosure
- 5 gallon plastic work tank with removable cover.
- Polycarbonate pane in the enclosure door for viewing the liquid meter transmitter.
- Pumping components mounted on a common back plane.
- Coriolis liquid flow meter and transmitter.
- Heated cabinet.
- Exterior refill and discharge liquid NPT fittings for field connection.
- External j-box electrical termination.
- Pre-wired & pre-plumbed for easier field installation.

### OPTIONAL FEATURES

- Platform scale for inventory reconciliation or level indication.
- Larger enclosure for adding a second liquid.
- 330 gallon tote and components in an enclosed housing.
- Heat blanket for liquid tote.
- Support stand to accommodate 275 gallon basket style totes.
- Water addition cabinet for enzyme systems.
- Factory wired and plumbed multiple liquid manifold.
