

POWDER FEEDER

DEPENDABLE & ACCURATE

APEC's powder feeders are designed for metering dry additives. They are available in volumetric or loss-in-weight configurations. Feeder screws are available in 2", 3" or 4" to accommodate your desired application rates.

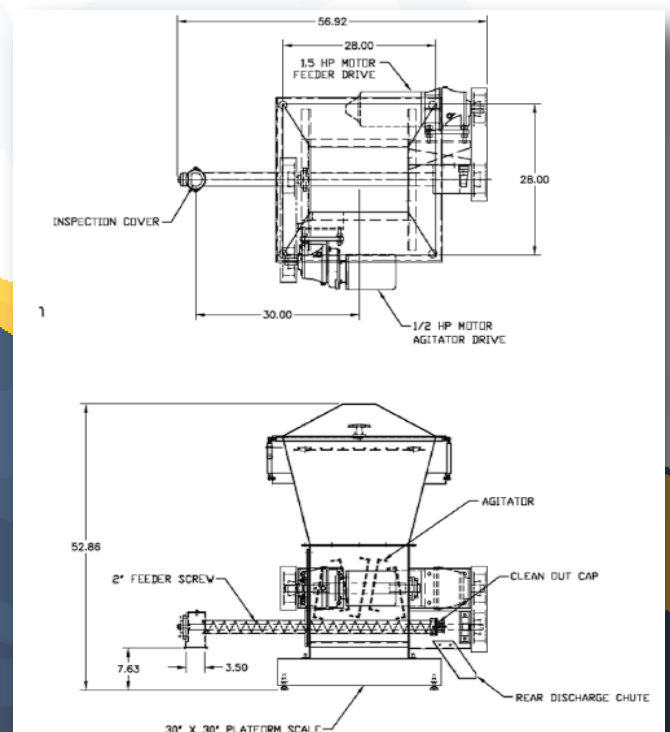

VOLUMETRIC FEATURES

- 6.7 cubic foot capacity ingredient hopper
- Hinged lid with locking handle, gas springs and prox switch
- Bolted in expanded metal trash screen
- Feeder screw sized to your rate needs
- 1-1/2 hp feeder screw motor drive
- Mechanical bin agitator with separate 1/2 hp gearmotor drive prevents material bridging
- Sheave and timing belt drive components

LOSS-IN-WEIGHT FEATURES

Same as Volumetric above plus:

- Platform scale with floor support frame
- Loss In Weight Control panel which can be mounted on the floor support frame or independent of the feeder
